Dear Neighbour,

My name is [your name]. I am thinking of starting an aging in place group to connect neighbours to neighbours.

An aging in place group is a volunteer group made up of neighbours and community members interested in supporting each other to stay socially engaged, physically healthy, and aging at home for as long as possible.

I am reaching out because I would love to start a conversation with you and others who might be interested and discuss what this idea might look like for all of us. We can get to know each other, and talk about our experiences living in this community and how we can make it a better place to grow older.

If you are interested in taking part in this conversation and possibly joining me in making this aging in place group a reality, please contact me here:
